DEPARTMENT DOCUMENT 15100 ENTERED ON EXHIBIT C

Consisting of brick combination depot building.

The location is ~~on~~ ^{not on} this company's property and is ~~in~~ ^{not in} joint territory. To secure required rights it will be necessary to secure easement from Watab Pulp & Paper Company for drive-way back of station which that company has agreed to furnish.

If required by Accounting Department, a detailed estimate will be furnished promptly after approval. The expenditure is recommended for the following reasons: (if space is not sufficient continue on back.)

The Watab Pulp & Paper Company who have expended over a million dollars on their plant at this point, put out about eighty tons of paper per day, and bring in coal and pulp wood, (all of which is handled by the Northern Pacific Railway,) and who take great pride in their surroundings, have been urging for several years that proper station facilities be provided.

Present facilities consist of small wooden building used as a telegraph office with an inadequate waiting room, and no provision for handling freight, necessitating that it be exposed to the weather or left in a car, either arrangement being unsatisfactory.
