Class of Work: No. 141

The location is _____ on this company's property. To secure rights, it will be necessary

Location: **Noxon, Montana.**

Title **Section Motor Car for Section #12.**

Reason: Section #12 at Noxon has been operated with Casey-Jones Engine owned by Section Foreman, mounted on hand car body owned by Railway Company. Engine is worn out and has been scrapped and recommend to replace with 6 H.P. Fairmont Engine to be owned by Railway Company, mounted on standard car body.

This AFE supersedes RFA 28-1921, ED 96-1921.

This Noxon section is 6 1/2 miles in length. The average number of men employed under normal conditions is eight. Estimated that the use of a motor car in expediting the movement of the crew over their section saves at least one hour per day per man as compared with the use of a hand car, approximately \$625.00 per annum.
