Title and Reason: **To install telephone and selector equipment in the Signal Maintainers' houses.**

It is very desirable that some means be provided for the Division Superintendent's office to get into communication with the Signal Maintainers, and through them with the section foremen at closed telegraph stations.

It is proposed to install telephone and selector equipment in the Signal Maintainers' houses at the above named stations, and connect the equipment with the simplex telephone line.

Both the Montana and Rocky Mountain divisions have the Signal Maintainers' dwellings connected with the simplex telephone line, and it is a handicap not to do this on the Yellowstone Division.

Practically all the material and equipment is already on hand in the Company stores.

Work to be done by **company force** under charge of **Superintendent of Telegraph**

Accounting to concentrate in the office of **Superintendent of Telegraph**
