

FULL SIZE DETAIL.

SECTION.

If second hand slide plates are used, this is turned up end, which should be left on plate in turned down position.

NOTE: Track Liner Plate to be made of scrap plate, 3/8" to 5/8" thick, and ribs to be welded on as shown. Plate to be also used as Jack Block. While plate dimensions are shown as 6"x18", plates of scrap stock up to 7" wide may be used with lengths up to 22", to avoid unnecessary trimming.
